

A GOOD REASON FOR A RECOMMENDATION

The recommendation of a third party can pay off twice for you as a registered Prime21 candidate: suggest to your acquaintances, friends or work colleagues who work in the fields of IT or SAP. In addition to our ongoing commitment that we plant a tree with **GROW MY TREE** for every good recommendation, as a beneficiary of our recommendation program you will receive a bonus of up to CHF 2,000* for each successful referral.

The condition for payment of the referral bonus is that the recommended person was not yet listed in our candidate pool when the application was received, that they could be placed with a customer company within six months of receipt of the application documents and they successfully passed the probationary time period.

RECOMMENDATION IS ALSO WORTHWHILE FOR YOU

Talk to your acquaintances, friends or work colleagues about whether they are interested in professional development. You can either send us the contact details of the interested person, and we will get in touch within twenty-four hours, or your contact person can apply directly to us, mentioning your name. You can address your recommendation either to your original contact person at Prime21 or to empfehlung@prime21.ch.

*Depending on target salary
